

# HELPFUL INFORMATION ABOUT YOUR FORMS

**A LASER OR INK JET PRINTER IS REQUIRED TO PRINT YOUR LASER FORMS.**

## **TAX FORM COUNT UTILITY**

You should be aware of a special program that can be found on your Utilities Menu entitled, "Tax Form Count Utility," that can be helpful to you in determining how many forms to order. This program will count all of the individuals or recipients that have already been paid in the year specified and show what type of form they should receive. To arrive at a total number of forms to order, you should also estimate the number of additional forms that you will need for other employees and recipients that will be paid this year or processed at year-end. (Note, this program counts forms in the default data directory.)

## **W2'S**

I need to print 700 W2's. I have state and local withholding. I need 9 total parts: Copy A for the SSA, Copy 1 for the State, Copy 1 for the locality, Copy D for the employer and Copies B,C,2,2 and instructions for the employee. (Note: Copy A's no longer have to be on red forms and can be printed on blank paper for W2's and W3's.)

## **W2 COPY A**

I could print these as black-scannable forms using blank paper. If I decided to do this I would **NOT** order pre-printed W2 Copy A's. If I decided to produce W2's on red scannable pre-printed forms, I would order red W2 Copy A forms which are item #25. The Copy A's come in packages of 50 sheets per package with two forms per sheet for a total of 100 forms per package. I need 7 packages. I will order 10 to make sure that I don't run out.

## **W2 PERF. PAPER**

I will use the 4-Up perforated paper with instructions on the back. Each employee will receive 1 sheet of paper. The paper comes in packages of 50 sheets. I need 700 sheets which would be 14 packages. I will order 18 packages to make sure that I don't run out.

The Copy A's come in packages of 50 forms per package. I will order one package.
